

# AAA School Safety Patrol Equipment Catalog

## A proud tradition since 1920,

the AAA School Safety Patrol Program has helped equip patrollers with the skills and resources needed to ensure children walk to and from school safely. The patroller duties are a valuable contribution to the major reduction in pedestrian fatalities and injuries. Since 1935, the effectiveness of the patroller has been a contributing factor in the decrease of student pedestrian death rates for children ages 5 through 14.

**AAA** has been dedicated to developing, implementing and supporting driver and traffic safety programs for motorists, pedestrians, cyclists and children since its founding in 1902. For more than 92 years, AAA has supported the AAA School Safety Patrol Program, which instills students with a sense of responsibility and leadership. Parents place their trust and care into the hands of the patrollers every school day. These dedicated individuals begin and end each school day at their “posts” assisting their classmates in getting safely to and from school. The AAA School Safety Patrol Program is the largest safety program in the world, with more than 600,000 children participating in schools throughout the country. To continue the program’s success, AAA makes available to participating schools the tools required to train their patrols, keep them safe, and recognize their achievements.
