

The Power of Doing Good

Make a Donation, Save a Life

Too often, we hear stories of lives lost in traffic crashes. Our goal, through the education and programs we offer, is to prevent crashes and save lives. We want to ensure no family has to endure the pain caused by a traffic tragedy—and we need your help.

The Auto Club Group Traffic Safety Foundation is working to create safer roadways for people in every stage of life. By making a donation to the Foundation, a 501(c)(3) charitable organization, you can help save lives. The Foundation relies on generous donations to provide communities with education, tools and training that protect people on the road, including programs that:

- ✓ Keep children secure while riding in cars
- ✓ Teach teens about safe driving practices
- ✓ Give older drivers techniques for reducing crash risk
- ✓ Help all motorists stay focused on the road and avoid the dangers of distracted and impaired driving

**Help save lives by donating
today at AAA.com/Foundation.**

The mission of the Auto Club Group Traffic Safety Foundation is to produce a significant and continuous reduction in traffic crashes, injuries and deaths in the communities targeted by our efforts.

The Auto Club Group Traffic Safety Foundation (ACGTSF), located at 1515 N. Westshore Blvd., Tampa, Florida 33607, is a not-for-profit, tax-exempt public charity certified under section 501(c)(3) of the Internal Revenue code. ACGTSF is funded by voluntary, tax-deductible contributions from organizations and individuals who support ACGTSF's purpose to produce a significant and continuous reduction in traffic crashes, injuries and death. Financial information may be obtained from the Florida Division of Consumer Services by calling 1-800-435-7352 toll-free within Florida; by calling 1-850-488-2221 from outside Florida; or by written request mailed to the address above. For questions, the address and/or phone number of a representative from ACGTSF will be furnished upon request. Contributors have the right to cancel a pledge for monetary contribution at any time prior to making the contribution. Please note, no goods or services were provided in exchange for the contribution to ACGTSF. ACGTSF receives 100% of contributions.

About the Foundation

For more than a century, AAA has developed traffic safety programs to protect and save the lives of drivers, passengers, bicyclists and pedestrians of all ages. Today, the Auto Club Group Traffic Safety Foundation continues AAA's commitment to safety by offering programs and resources that save lives on the road. The Foundation serves the states of Florida, Georgia, Illinois, Indiana, Iowa, Michigan, Minnesota, Nebraska, North Dakota, Tennessee and Wisconsin.

Next Generation Drivers

Distracted driving has become a roadway epidemic, with thousands of motorists killed or injured in the U.S. every year because of distracted driving crashes. At the Auto Club Group Traffic Safety Foundation, we're working to prevent distracted driving and other destructive driving behaviors, especially among young drivers.

Through our **Teen Driver Safety Program**, the Foundation deploys AAA

Driving Simulators throughout the states we serve. The simulator allows teen drivers to experience firsthand the dangers and consequences of distracted driving in a virtual setting.

The Foundation also works with high schools to teach young drivers about the deadly dangers of impaired driving. **AAA PROMise**, a program to protect teens and other drivers on the road during prom season, encourages students to abstain from alcohol/drugs and to never drink and drive.

At Your Post—AAA School Safety Patrol

Since 1920, the **AAA School Safety Patrol™** program has created a safer environment for millions of children. Recognized as the largest traffic safety program in the world, it has been praised by safety and education groups around the globe for reducing injuries and deaths among 5- to 14-year-olds, the age group most at risk for pedestrian injury.

The Auto Club Group Traffic Safety Foundation administers the AAA School Safety Patrol™ program at thousands of schools by providing resources to run the program successfully. Students learn a sense of safety awareness, leadership skills and responsibility while proudly wearing their belts and badges as they work to keep students out of harm's way.

Safety Through the Ages

Today's senior drivers are often healthy and active, but they are still at a greater risk of being killed or injured in a crash due to age-related fragility.

The Auto Club Group Traffic Safety Foundation utilizes programs such as **CarFit** and **AAA Roadwise Review** to ensure older drivers have the tools they need to stay safe on the road. CarFit offers seniors the opportunity to check how their cars "fit" them by leading them through a 12-point checklist with their vehicle, recommending adjustments to enhance comfort and safety behind the wheel. Through AAA Roadwise Review, seniors can measure the eight functional abilities shown to be the strongest predictors of crash risk among older drivers.
